INTRODUCTION

From June to September of 1999 a major survey of visitors was undertaken by the Yukon Bureau of Statistics on behalf of the Yukon Government's Department of Tourism. This survey, referred to as the Visitor Exit Survey (VES), sought answers from visitors on a wide variety of questions relating to their Yukon visit. A comparable survey was run in 1987 and 1994. Many of the results in the 1999 survey are compared to results from the 1994 survey in this report.

The VES was administered to visitors as they left the Yukon for the last time.

A brief report on the preliminary results of the VES was released in the fall of 2000. Preliminary results from the regional visitor exit survey were also released in the fall of 2000.

The current report will focus specifically on the results of the regional visitor exit survey administered in the Silver Trail region (one of nine Yukon tourism regions) in conjunction with the VES. Other reports will cover the eight remaining tourism regions: Campbell, Carcross/ Southern Lakes, Klondike, Kluane, North Yukon, Teslin, Watson Lake, and Whitehorse.

In addition to further regional reports, an overall Yukon summary will be prepared as well as a technical paper describing the methodology used in the survey.

- Looking at a typical expenditure of \$100 by a *visitor* shows that the highest amount spent was for transportation (**\$42**). *Visitors* from Canada spent the most on transportation (**\$51**).

HOW DID THEY PLAN FOR THEIR VISIT ?

- **91%** of *visitor parties* stated that they had planned to visit the Silver Trail region before arriving in the region.
- The **Milepost** magazine was the most frequently mentioned source of information *visitor parties* used in planning their trip.

* Note: the definition of the Silver Trail region changed from 1994 to 1999.

A SPECIAL NOTE ABOUT THE SURVEYS

This report on the Silver Trail region is based on the results of the regional surveys administered as part of the 1999 Visitor Exit Survey (VES).

A regional visitor was defined as a non-resident who made at least one stop in the region. A non-resident who travelled through a region without stopping was not counted by the survey as a regional visitor. A stop could have been as brief as passing up at a local service station or stopping at a visitor reception centre, or could have been as long as staying over in the region for several nights. A stop could also have involved leaving the region and returning to continue the visit. For example, Mr. and Mrs. Smith from Houston, Texas travelled to the Yukon in June, 1999. They arrived in the Klondike region, Dawson City to be exact, and stayed for three nights, leaving to travel over the Top of the World Highway to various destinations in Alaska. In late July they returned to the Yukon on their way home via the Alaska Highway, stopping briefly in the Kluane region at Beaver Creek, Destruction Bay and overnight in Haines Junction, before arriving in Whitehorse for a stay of two nights. They then departed the Yukon via the south Klondike Highway through Carcross on their way to Skagway and ferry service to the south. For the purpose of the Klondike regional survey they were counted as a party of two, who visited the Klondike region once for a total stay of three nights. Since the Smiths made several stops and stayed overnight in Haines Junction before their two night stay in Whitehorse, they would also have been counted as visiting both the Kluane and Whitehorse regions.

The report released in October of 2000, 1999 Visitor Exit Survey Preliminary Summary, presented statistics from the Visitor Exit Survey (VES). This survey was administered to visitors as they left the Yukon for the last time. Results from the VES showed that between June and September of 1999, 232,766 visitors came to the Yukon. However, most visitors to the Yukon, such as in our example above of the Smiths from Texas, visit and stop in more than one Yukon tourist region. These visitors, or 'shared customers', were counted by the regional VES in each region visited. The regional surveys show that the 232,766 Yukon visitors counted by the VES as they left the Yukon for the last time, made approximately 530,000 'stops' in total to all of the nine Yukon visitor regions.

The focus of each of the regional reports therefore will be on the number of tourists who visited the region - who they were, where they came from, how much they spent, what they did in the region, where they stayed, how they 'got around' and how they evaluated the local services and attractions.

HOW MANY VISITORS CAME TO THE REGION ?

The pie chart on the right shows the number of visitors who came to the Silver Trail region from June to September of 1999, compared to the total number of visitors to the Yukon during the same time period. Of the 232,766 visitors to the Yukon, 14,259 or 6% spent some time in the Silver Trail region (94% of visitors to the Yukon did not go to the Silver Trail region).

In 1994, 59,973 out of 206,800 visitors to the Yukon came to the Silver Trail region (29%).

* Note: the definition of the Silver Trail region changed from 1994 to 1999.

Visitors to the Silver Trail Region

(Visitors to the Yukon = 232,766)

The graph on the right compares the number of visitors who came to the Silver Trail region with the actual number of visitors who stopped in the region. Of the 14,259 visitors to the Silver Trail region, 14,022 or 98% stopped in the region, 237 or 2% simply passed through without stopping.

In 1994, 7,290 out of 59,973 visitors to the Silver Trail region stopped in the region (12%).

Whitehorse	131,273	144,575
Total Visitors	476,585	529,347

Of the nine visitor regions the Silver Trail region had the second fewest number of visitors.

In 1999, 14,022 visitors stopped in the Silver Trail region, up from 7,290 visitors in 1994. The total number of visitors to each region in the Yukon increased from 476,585 in 1994 to 529,347 in 1999 (11%).

Note: the total visitors figure (529,347) is much larger than the total visitors to the Yukon figure of 232,766 since Yukon visitors who stopped in multiple regions (shared customers) were counted as a visitor in each region (see page 8 for more detail).

* Note: the definition of the Silver Trail region changed from 1994 to 1999.

Travel Parties Stopping in the Silver Trail Region (Travel Parties to All Regions = 231,800)

Regional visitors were asked how many people were travelling with them in their immediate travel party, sharing expenses, experiences or decisions. The chart on the left shows the number of travel parties who visited the Silver Trail region compared to the total number of parties visiting the other eight regions. In total, 231,800 travel parties visited all the regions, with 6,119 or 3% visiting the Silver Trail region.

In 1994, 3,318 out of 207,689 travel parties stopped in the Silver Trail region (2%).

HOW MANY VISITORS CAME TO THE REGION?

Of the nine visitor regions the Silver Trail region had the second fewest number of travel parties.

In 1999, 6,119 travel parties stopped in the Silver Trail region, up from 3,318 travel parties in 1994. The total number of travel parties to each region in the Yukon increased from 207,689 in 1994 to 231,800 in 1999 (12%).

Note: travel parties who stopped in more than one region would be counted more than once.

* Note: the definition of the Silver Trail region changed from 1994 to 1999.

Visitor Region	Number of Travel Parties	
	1994	1999
North Yukon	2,229	3,347

- \$168,064 or 9% was spent by visitors travelling by bus or motorcoach;
- \$564,510 or 31% was spent by visitors travelling by car, truck or van;
- \$967,107 or 54% was spent by visitors travelling by motorhome, RV or camperized bus; and
- \$103,713 or 6% was spent by visitors travelling by other modes of travel.

Note: these figures are 'trimmed' averages meaning that extremely high and extremely low spenders have been eliminated from the calculation to obtain a more meaningful average figure.

HOW MUCH DID THEY SPEND ON THEIR VISIT TO THE REGION?

What did visitors spend their money on?

The graph on the right shows what visitors to the Silver Trail region spent their money on while visiting the region. In general, every \$100 spent by a visitor was divided up as follows:

- \$42 out of the \$100 was spent on transportation;
- \$34 was spent on restaurant meals;
- \$15 was spent on shopping and souvenirs;
- \$4 was spent on other expenses;
- \$3 was spent on other Yukon-made arts & crafts;
- \$1 was spent on Yukon Indian arts & crafts; and
- \$1 was spent on accommodation.

The table below shows how spending varied depending on the origin of visitors. Spending is shown as so many dollars out of every \$100 spent. For instance, \$51 out of every \$100 spent by visitors from Canada was spent on transportation as compared to \$38 for visitors from the U.S.A. and \$43 for overseas visitors.

	Visitor Origin		
	Canada	U.S.A.	Overseas

The visitors who spent on average the greatest proportion of their visitor dollars on each type of expense were:

Motorhome, RV or camperized bus visitors spent \$48 out of every \$100 on transportation:

Car, truck or van visitors spent \$1 out of each \$100 on accommodation:

Car, truck or van visitors spent \$33 out of each \$100 on meals in restaurants:

Car, truck or van visitors spent \$4 out of each \$100 on Yukon Indian arts and crafts:

Car, truck or van visitors spent \$4 out of each \$100 on other Yukon-made arts and crafts:

Motorhome, RV or camperized bus visitors spent \$20 out of each \$100 on shopping and souvenirs; and

Motorhome, RV or camperized bus visitors spent \$6 out of each \$100 on other expenses.

Did visitor spending vary with the type of transportation visitors used?

The question could be clarified with a specific example such as, 'Did visitors who travelled in a motorhome spend their money differently than visitors who travelled by bus or motorcoach?' The table on the left provides a breakdown of a typical \$100 spent by visitors, categorized by the type of transportation they used in the region. For instance, looking at spending on transportation:

- visitors travelling by car, truck or van spent on average \$47 on transportation out of each \$100 they spent;
- visitors travelling by motorhome, RV or camperized bus spent \$48 out of each \$100;
- spending by visitors travelling by bus or motorcoach is not available; and
- spending by visitors travelling by other means of transportation is not available.

HOW DID THEY PLAN FOR THEIR VISIT ?
